Prop Guard

NO EXCUSES

**For
Outboard
& Stern
Drive
Engines**

For over fifty years the same basic technology employed in the Prop Guard® has been successfully used worldwide by canal boats, river boats, and commercial fishing vessels to achieve greater propeller thrust plus substantial fuel savings.

Now, after years of research and testing, these same benefits, plus much more, are available to pleasure boat owners at an unbelievable low cost.

✦ NO EXCUSES ✦

Prop Guard® will vastly improve safety, and can give you better overall performance!

Available for both outboard engines from 5 to 350 horsepower and sterndrives.

- Increase propeller efficiency
- Increases acceleration
- Increases thrust
- Reduces fuel consumption
- Improves handling
- Reduces hull stress
- Reduces engine stress
- Reduces propeller torque effect
- Reduces wake
- Reduces pounding
- Improves prop visibility
- Improves safety

Optional:
Prop Sock®
Safety and protective cover. Comes in two sizes to fit all Prop Guards®.
